

Halloween Madlib

One day Dr. Frankenstein made a **NOUN**. It was the most **ADJECTIVE** thing he had ever seen. It had **ADJECTIVE** legs, fourteen **PLURAL NOUN**, and three **PLURAL NOUN**.

"What have I done?" said the doctor. "I've created a **NOUN!**"
He took it to the laboratory. It started to **VERB**.

"Wow!" said the doctor. "I guess I'll have to **VERB**."
He took a scalpel and cut it from its **NOUN** to its **NOUN**.

"Stop!" it cried. "That will make me **VERB**."

EXCLAMATION!" shouted Dr. Frankenstein. "It wasn't that bad, was it?"

The **ADJECTIVE** beast rolled back its **PLURAL NOUN**.

"Be careful not to **VERB** for at least two **PLURAL NOUN**," said Dr. Frankenstein.

So the creature rested. Soon it felt like a new **NOUN**.
